### Taxpavers' Bodies

"Strong taxpayers' associations will be needed more in New England cities and towns in the latter | much satisfaction in the fact that part of 1983 and in 1934 than the enrollment of young people ever before," according to John from Northfield is unusually large F. Tinsley of Worcester, chairman and is evidence of the most corof the community development dial relations between the schools committee of the New England and the community. Those who council. In a letter sent to the ex- are enrolled in the Seminary from ecutive officers of every taxpayers' organization in New England and made public at council headquarters. Tinsley submitted a suggested program of activities for such organizations during the com-

ing fall and winter.
"There is a growing tendency today for communities to forget the years of 1930, 1931 and 1932, and to think that the improvement in business conditions decrease the need for taxpayers' organizations," Tinsley's letter points out. "Pressure is being brought to bear on every unit of government to increase expenditurees at the lam, Katharine R. Payson, Priscilpresent time. If such measures la Porter, Margaret D. The savings of approximately \$135,000,000 which have been made in public expenditures in New England since 1931 have been largely the result of organized activity for tax reduction, Tinsley stated. "It is now up to taxpayers' organizations to constitute themselves as vigorous, energetic groups to maintain this id H. Sherman, Donald R. Suther-reduction and to continue efforts land, Charles H. ### SHOW ME--a range like Mrs. Smith's

It's an oft repeated incident: two ladies enter the dealer's store—the one a happy electric range user, and the other, a friend who has convinced herself from the user's experience that an electric range is what she wants.

What finer praise for the advantages of electric cookery could there be than the testimony of users who accompany their friends to the dealer's store?

Ask your friends who cook electrically! They will tell you they prefer electric cookery for its economy, its cleanliness, its dependability, its speedy flexibility, its safety, its automatic controls that take charge of the cooking operations.

Investigate electric cookery, today! You should be enjoying its many advantages now and for years to come.

That rigid governmental economy—federal, state, county and local-is essential to our future, is a fact that looms large in the minds of millions of citizens.

A Pennsylvania Grange did commendable piece of work recently, when the members turned Warren Delano, from 1809; then out in a body and planted 40 hand- came Sarah Delano, who married

some sugar maples along the road-sides, adding greatly to the future attractiveness of the village. In Northfield our early inhabitants did this same thing and hence we have our beautiful tree lined streets. The least we of the present generation can do is to appreciate and care for them.

True economy is that which obtains the largest possible return for a dollar spent. Truer economy is to spend that dollar at a time when it will bring the most.

We have had a number of years of extreme depression. Prices have dropped to unimaginably low levels. Buying power has been close to non-existent. There was money in the country-but persons who had surpluses were afraid to spend. They went without needed articles in order to keep their savings intact. They permitted property to fall into costly disrepair.

If they pursue that timid policy any longer, they are going to be literally out of luck. That hoarded money is going down in value now. The worth of the dollar depends entirely on what it will buy. Six months from now it will buy much less than it will buy today. ## Next to a Camel Chevrolet gives most miles per gallon

CHEVROLET No argument about the camel. When it comes to miles per gallon, there's nothing in all the Gobi desert-or anywhere else—that can beat him. No argument about Chevrolet, either. It's the most economical

full-size transportation on wheels. More miles on a tankful of gas. More miles on a filling of oil. More miles without worry and trouble and repair! And they're smoother, safer, more

comfortable miles, too, due to all these features

exclusive to Chevrolet in the low-price field: A cushion-balanced six-cylinder engine. Fisher body. Fisher steel-plus-hardwood construction. Fisher Ventilation. Starterator. And many more!

South Crossley and Middle Crossley. Mr. Malcolm E. Foster will have charge of South Crossley, II. Bretney Miller will supervite Middle Crossley, and Mr. Heland Baxter will have the respective.

Travel in comfort and save as you go. Save with a new Chevrolet. In addition to being America's most economical car, it's also America's fastest" selling car by the widest margin of leadership in history.
